

# HS-610A CI Coating

## Characteristics and Benefits:

**50 Rockwell C Hardness Rating  
Twice as Hard as  
Uncoated Surfaces.**

**Super Nickel Coating  
Resists Rust, Orange Peel, Wear.**

**Hundreds of  
CI Cylinders Coated.  
Excellent Results.**

## General Description:

Proven effective in presses across the nation, HS610A provides an excellent printing surface that resists corrosion due to water-based inks.

It requires virtually no maintenance.

It requires no oiling or preparation after a down day. It resists superficial wear and everyday distress common in this environment.
